

Your slides aren't getting the message across.

With GPT, create materials that resonate from the very first page.

Why is this tool necessary?

There's no time left to head to the slides.

It's in my head, but I can't put it into words.

I'm unsure if it's okay to submit this document.

Key Features

Automate your business plan with language that resonates with VCs

Provide all the information investors require

Passion? Logic? Choose your tone.

AI uncovers the reasons why you can't write

Intended users

Startup CEO

I can picture it in my head,
but I can't make it take shape.

VC in preparation

I have things I want to say
But they won't get through

Business Development Manager

I cannot translate complex ideas
into a comprehensible form.

Support Consultant

The deadline is approaching,
and we're short-handed.

Use Cases

I have ideas, but no time to put them into materials.

I struggle every time to find the right words for each person.

I want to convey it, but the current materials aren't strong enough.

Panicking before the meeting because the materials aren't ready yet

Communicative materials shape the future
